MAKE HP LOOK GREAT AGAIN

# NEXT LEVEL STYLING

## WHAT IS NEXT LEVEL STYLING?

Next Level Styling means that the adventure motorcycle not only changes look with the installation of one of the stylish adventure sticker kits that Signature Custom Designs offers, but also gives you the opportunity to change the colour of your adventure motorcycle.

Next Level Styling will create a new motorcycle for you – one that will be a head-turner, reflecting your personality and individual identity as a rider.

The detail that goes into our work, and more importantly our passion and love for adventure motorcycles, are what differentiate Signature Custom Designs in the market.

As always, at Signature Custom Designs we do what we know best – innovating and offering something unique, something special, to the adventure motorcycle community.

The concept of Next Level Styling will continue, with more innovative ideas for more motorcycle models that will stretch the conventional boundaries of the motorcycle styling industry.

# HP EDITION

The HP EDITION marks the beginning of Next Level Styling for Signature Custom Designs.

The base model is the BMW R1200GS LC Adventure, and the aim is to revitalize the true HP style inspired by the BMW HP2 Enduro. In other words, how a real HP should look.

The main theme of this next level of adventure styling is bold yet elegant white HP lettering on the side of the tank of the GS Adventure, with grey background and metallic blue fenders reflecting the colour combination used for the original HP2 Enduro.

## TOP TANK COVER & FRONT FENDER PAINTING

The top tank cover and front fender were painted in the colours of the R1250GS HP Style Year 2019. The colour is a striking blue that, in addition to the 'sport' look, adds the feeling of high-level craftsmanship and superior quality. For the front fender, the HP1200 has been written in a font that blends perfectly with the graphics on the tank.

We could send you new painted top and front fender plastics ready for installation, but we thought it would be more convenient and exciting for you to paint your own bike! The paint colour is the M42 Racing Blue Metallic. We will send you the HP1200 sticker in white.

Left & Right Stickers

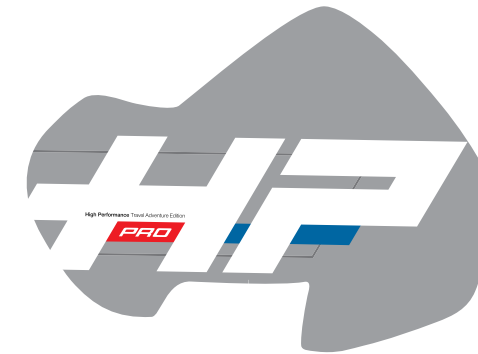

# GET THE HP EDITION

The Styling Kit includes all necessary stickers to convert your motorcycle to HP EDITION. The Kit does not include the Top Tank Cover and Front Fender.

## TANK DESIGN

The HP EDITION centrepiece is the side tank, which impressively introduces the HP initials in a way that emphasises the 'High Performance' concept. Below the HP, the word PRO is introduced, highlighting the 'sport' character of the design.

- Fits 2014-2019 BMW R1200/R1250 GS Adventure.
- Left and right stickers.
- All stickers are printed on high quality cast vinyl material + lamination matte.
- Professional wrapping assistance needed.

The concept is completed with the minimalistic description "High Performance Travel Adventure Edition". The main colours of white, grey and blue were kept, with an extra touch of red to refresh the original HP design.

- Some parts of the motorbike need to be removed temporarily.
- Waterproof, scratch proof, colour-fade proof.
- Easy to remove after the intended period of use.
- Installation Instructions included.

## FRAME STYLING KIT

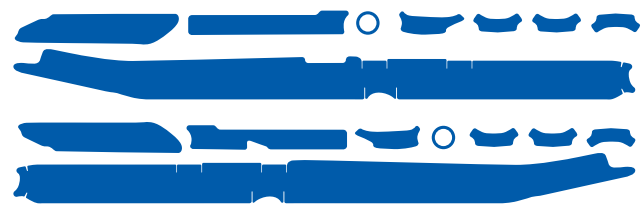

Next Level Styling cannot be achieved if the frame colour remains black. With the innovative Frame Styling Kit – which only SignatureCD offers worldwide – it is possible to change the colour of the frame with a high quality durable sticker that gives the impression of a Cobalt Blue powder-coated finish. Changing the colour of the frame from factory black to Cobalt Blue effectively completes the transformation to the HP EDITION.

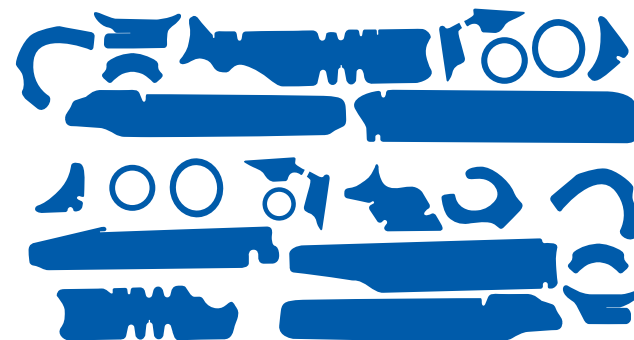

- Fits 2014-2019 BMW R1200/R1250 GS LC.
- Left and right side stickers.
- Powder-coated finish effect.
- All stickers come in multiple pieces ready to fit.
- No trimming necessary.
- Seat, battery cover, panniers racks, slip-on exhausts and passenger foot pegs need to be removed temporarily.
- Waterproof, scratch proof, colour-fade proof.
- Easy to remove after the intended period of use.
- Installation Instructions included.

### Pyramid Styling Kit Left & Right

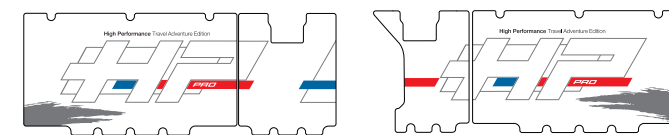

## ALUMINIUM PANNIERS

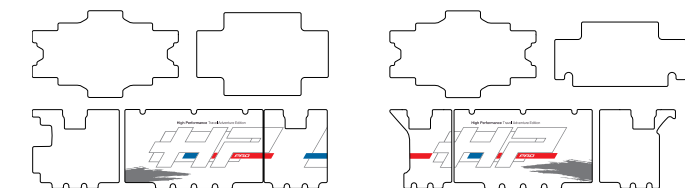

An outline was used for the main HP graphic, maintaining continuity of the concept without repeating the tank design. The rear side of the panniers is one of the most important areas and an opportunity to communicate HP EDITION to those who follow – cars or bikes. In addition, it should be noted that the material used for the adaptation of the graphics is a high quality transparent film that also serves in protecting the surface of the panniers.

### Option 1: Side and rear styling

- Fits 2014+ BMW aluminium side panniers.
- Left and right panniers.
- All stickers are printed on high quality transparent cast vinyl material + lamination gloss.
- No trimming necessary.
- No need to remove any parts of the panniers.
- Waterproof, scratch proof, colour-fade proof.
- Easy to remove after the intended period of use.
- Installation Instructions included.

### Option 2: Side and rear styling + protective films (top, front & bottom sides)
